

DISCOVER THE
WONDERFUL
WORLD OF
WOOL.

VICTORIA  CARPETS®
Established 1895

Naturally a better choice.

The best choice.

When you choose a wool carpet from Victoria Carpets, you will be comfortable in the knowledge that you have selected a natural fibre that's not only renewable and sustainable, but enduringly beautiful.

From the comfort of allergen inhibition to practical advantages such as form resilience and stain resistance, a quality wool carpet will complement any décor, adding a luxurious elegance for years to come.

Why wool.

Stain resistant

The structure of woollen fibres is stain resistant and slow to absorb moisture – qualities that also make it easy to clean

Hypoallergenic

Resisting the growth of irritants like bacteria, moulds and mildew, wool also traps potential allergens, removing them from the air you breathe

Durable

With a crimped fibre that springs back into shape, wool carpets wear gracefully, retaining their resilience and luxurious soft feel underfoot

Quiet

The acoustic properties of wool help keep rooms quieter by absorbing airborne noise and reducing its transmission through floors

Comfortable

Trapping air in its fibres, wool is a natural insulator, keeping rooms warmer in winter and cooler in summer

Low flammability

Wool will not readily melt or burn when exposed to heat or flame
